\*RiteTitle Service checks for potential problems related to the above-listed vehicle (the vehicle), and we guarantee our service. The RiteTitle Guarantee protection on the vehicle is extended only to the retail buyer (the retail buyer) of the above listed seller (seller) and is not transferrable. Protection is not effective until the retail buyer receives the vehicle from the seller. Our guarantee is limited to \$60,000 per vehicle with the first \$500 of every loss the responsibility of the retail buyer. The retail buyer has 3 months from the Effective Date above within which to file a claim request with RiteTitle for not receiving a certificate of title. The retail buyer has 1 year from the Effective Date to file a claim request with RiteTitle for any of the other above-listed protections afforded by the Guarantee.

Protection under the guarantee will be either the purchase price of the vehicle (limited to 120% of the National Automobile Dealers Association retail guide book value), in which case the buyer or retail customer will be required to release the vehicle to RiteTitle or its agent, or the amount of the devaluation (according to the NADA retail guide book value) due to an odometer, title brand or make/model/model year misrepresentation. A retail buyer may only file one claim request under the Guarantee during any 1-year period. Our guarantee is secondary to any other applicable guarantee, fraud protection service, insurance policy or coverage. Retail buyers asserting claims are required to comply with the requests of the parties investigating a claim, and failure to do so voids the protection under the guarantee. The Guarantee does not afford protection against misrepresented vehicle condition, the sellers failure to deliver or provide the vehicle, or any circumstances or expenses other than those expressly listed above.
